

04 et 05 Juin
2026

68èmes Journées Internationales
d'Endocrinologie Clinique
Henri Pierre Klotz

PARIS
Faculté Cochin

Génétique et Endocrinologie

HOW GENETIC/GENOMIC/EPIGENETIC CHANGED OR WILL CHANGE THE DIAGNOSIS AND MANAGEMENT OF ENDOCRINE DISORDERS?

THURSDAY

8:30 - 9:00 AM

Welcome

9:00 - 10:30 AM

Genetic diversity: impacts in the diagnosis

Chairs : Lionel Groussin, Sylvie Jaillard

NGS versus exomes versus genome wide : advantages? disadvantages?

Anne Barlier (Marseille), Jérôme Bouligand (Bicêtre) (y compris PFMG)

What are “real” pathogenic variants?

Nicolas de Roux (Paris)

Is there still a role of Genome Wide Association Studies in genetic evaluation?

Takiy Berrandou (Paris)

10:30 - 11:00 AM

BREAK

11:00 AM

-

12:30 PM

Cytogenetic and chromosomal diseases

Chairs : Jérôme Bouligand, Sophie Christin-Maître

Are karyotypes old fashioned in genetics?

Sylvie Jaillard (Rennes)

Genome architecture in endocrine diseases, Xlag syndrome

Adrian Daly (Liège)

Y chromosome and fertility

Csilla Krausz (Florence, Italie)

04 et 05 Juin
2026

68èmes Journées Internationales
d'Endocrinologie Clinique
Henri Pierre Klotz

PARIS
Faculté Cochin

Génétique et Endocrinologie

12:30 - 12:40 PM

Oral Communications

12:40 - 2:00 PM

LUNCH

2:00 - 3:30 PM

Free circulating nucleic acid and biomarkers

Chairs : Anne Barlier, Philippe Chanson

What are circulating nucleic acids?

Nicolas Chatron (Lyon)

Diseases with mosaicism: MC Cune Albright

Pauline Romanet (Marseille)

Biomarkers to improve genetic diagnosis in paragangliomas

Alexandre Buffet (Paris)

3:30 - 4:00 PM

BREAK

4:00 - 5:30 PM

Epigenetic / imprinting

Chairs : Albert Becker, Agnès Linglart

Epigenetic and imprinting introduction

Agnès Linglart (Paris)

Growth disorders and epigenetic

Frédéric Brioude (Paris)

Epigenetic of bilateral adrenal hyperplasia

Fanny Chasseloup (Kremlin-Bicêtre)

FRIDAY

9:00 - 10:30 AM

Genetics in newborns and in the families

Chairs : Marie-Christine Vantyghem, Nicolas de Roux

Genome in neonatal screening

Laurence Faivre (Dijon)

Genetic counselling

Barbara Girerd (Bicêtre)

04 et 05 Juin
2026

68èmes Journées Internationales
d'Endocrinologie Clinique
Henri Pierre Klotz

PARIS
Faculté Cochin

Génétique et Endocrinologie

Monogenic disease exclusion in noninvasive prenatal testing

Juliette Nectoux (Paris)

10:30 - 11:00 AM

BREAK

11:00 AM -
12:30 PM

How genome analysis changed or will change the diagnosis and care in endocrine diseases?

Chairs : Dominique Maiter & Lucas Persani

Secondary hypertension of genetic origin

Marie-Christina Zennaro (Paris)

Genomics and adrenal tumors

Guillaume Assié (Paris)

MEN2

Frédéric Castinetti (Marseille)

12:30 - 2:00 PM

LUNCH

2:00 -
4:00 PM

How genetics changed or will change the therapy in endocrine diseases?

Chairs : Patrick Petrossian & Patrice Rodien

Thyroid nodules with indeterminate cytology

Luca Persani (Milan)

Familial dyslipidemia

Bruno Verges (Paris)

Targeted therapy in craniopharyngioma

Emmanuel Jouanneau (Lyon)

DSD : genetic and surgery

Claire Bouvattier (Bicêtre)
